Long-term superior performance is directly related to job fit. Job fit, in simple terms, is having the talent that the job requires.

Most people match some, but not necessarily all, job requirements. When this happens, we have a gap. The gap is nothing more than an area for development.

This report makes it easy for both manager and subordinate to discuss and develop a plan for personalized development.

This section identifies which people attributes are important to the job benchmark from its highest to lowest rankings. In comparing talent, it is important to note that gaps may point to a job attribute that is of significant importance to the job but has a low ranking by the person. In turn, a job attribute may be of low importance to the job but has a high ranking by the person.
